ALI SHAIKH

alishaikhh15@gmail.com | +91 8169566689 | LinkedIn | Credly | GitHub | Mumbai, India

Computer Science undergraduate specializing in AI/ML and cloud-based systems, with hands-on experience building LLM-powered applications and scalable full-stack platforms.

EDUCATION

UNIVERSITY OF MUMBAI **Mumbai, India**

• *Bachelor of Engineering (Computer Science)* *(Nov 2022 – Jun 2026)*

TECHNICAL SKILLS

Languages: Python, SQL, JavaScript, C++
Frameworks & Backend: FastAPI, Flask, Node.js, Express, React
AI/ML & LLMs: PyTorch, TensorFlow, LangChain, OpenAI APIs, Hugging Face, RAG (Retrieval-Augmented Generation)
Databases & Vector DBs: MongoDB, FAISS, Pinecone, ChromaDB
Cloud Platforms & Tools: Google Cloud Platform (Vertex AI, Cloud Run, BigQuery), AWS (EC2, S3, RDS, Lambda), Git, GitHub
Web & Visualization: HTML, CSS, Tailwind CSS, Material UI, Streamlit

LEADERSHIP & EXPERIENCE

Google Cloud Arcade **Mumbai, India**

Co-Facilitator (Program Manager – GCAF25) *(Mar 2025-Dec2025)*

- Led cloud enablement programs for **2000+ learners globally**, improving technical proficiency and outcomes
- Built strategic partnerships with international tech communities (Germany, Tunisia, India)
- Delivered hands-on workshops on real-world Google Cloud applications and use cases
- Developed onboarding systems and SOPs to effectively reduce learner drop-offs

ArcadeOps Community **Mumbai, India**

Co-Founder *(Jan 2024- present)*

- Established a **400+ member learning community**, providing structured knowledge-sharing on AI, cloud, and emerging technologies.
- Managed curriculum and engagement initiatives
- Increased participation by **35%** through collaborations with global developer communities

PROJECTS

FARMCHAIN – AI-Powered Agri Marketplace & Advisory System [LINK]

- Built a full-stack agri-tech platform (Node.js, Express, MongoDB) enabling farmers, suppliers, and admins to manage listings, bookings, and moderation workflows
- Developed a Soil Intelligence Engine (Python + LangChain + OCR) reducing soil analysis time by **75–90%**
- Integrated LLM-based advisory system (Ollama, Gemini) for real-time farming recommendations.
- Implemented multilingual support (English/Marathi + TTS) to improve accessibility for regional users
- Prototyped blockchain-based machinery transactions using Solidity + Hardhat

Querify – AI-powered SQL Query Generator from CSV [LINK] | [DEMO]

- Built and deployed a production-ready AI web app that converts natural language into SQL queries using LLMs and LangChain
- Enabled non-technical users to query structured data efficiently without SQL knowledge
- Reduced query writing time by **~70%**, improving productivity and accessibility

Quizzora – AI-based Quiz and Summary Generator [LINK]

- Developed a platform converting PDFs, audio, and video into summaries and quizzes using GPT-4, Whisper, and vector databases
- Automated content understanding and improved learning efficiency
- Designed for scalable use in education, training, and compliance systems

CERTIFICATIONS

- **Google Cloud Arcade Facilitator – First Milestone (1800+ Badges)** – Google Cloud *(Jun 2025)*
- **The Complete 2024 Web Development Bootcamp** – Udemy *(Full-stack development)*
- **AI A-Z: Agentic AI & Generative AI** – Udemy
- **Google Cloud Skills Badges** – BigQuery, Cloud Run, Vertex AI *(Credly Verified)*
- **Google Developer Group – Open Community Participant** *(Event Certificate)*

AWARDS & ACHIEVEMENTS

- Recognised for **onboarding and guiding 300+ learners** in the Google Cloud Arcade program, improving retention rates by 40%.
- Achieved multiple **Google Cloud Skill Badges** across cloud computing and AI technologies.
- Contributed to **cross-community collaborations** with GDGs in Germany, Tunisia, and India, expanding learning opportunities for global participants.
