

ALI SHAIKH

alishaikhh15@gmail.com | +91 8169566689 | [LinkedIn](#) | [GitHub](#) | [Portfolio](#) | Mumbai, India

Computer Science engineer (2026) who builds end-to-end software — from React/Node web platforms to LLM-powered AI systems. Hands-on with RAG pipelines, vector databases, REST API design, and cloud deployment on GCP and AWS. Comfortable owning a feature from architecture to production.

EDUCATION

University of Mumbai

B.E., Computer Science | CGPA: 7.07 / 10

ICSE 10th: 89.40% (2020) ISC 12th: 73.50% (2022)

Mumbai, India

Nov 2022 – Jun 2026

TECHNICAL SKILLS

AI / ML: PyTorch, TensorFlow, Scikit-learn, LangChain, Hugging Face, OpenAI APIs, RAG, Whisper

Languages: Python, SQL, JavaScript, C++

Web & Backend: React, Node.js, Express, FastAPI, Flask, REST APIs, JWT Auth

Vector & Databases: FAISS, Pinecone, ChromaDB, MongoDB, BigQuery

Cloud & Tools: GCP (Vertex AI, Cloud Run), AWS (EC2, S3, Lambda, RDS), Git, Docker, Streamlit

PROJECTS

FarmChain — AI-Powered Agri Marketplace & Advisory System

[GitHub](#)

- Architected a 3-tier platform (Node.js, Express, MongoDB) with JWT-based authentication, supporting separate farmer, supplier, and admin workflows with role-based access.
- Built a Soil Intelligence Engine (Python, LangChain, Tesseract OCR) that parses scanned soil reports and extracts nutrient data, replacing manual data entry from PDF reports.
- Integrated a multi-LLM advisory layer (Llama 3 via Ollama, Google Gemini) delivering context-aware crop recommendations based on soil and regional climate data.

Querify — Natural-Language to SQL Query Generator

[GitHub](#) · [Demo](#)

- Built an AI app converting plain-English questions into SQL using an Ollama LLM and LangChain, letting non-technical users query data without writing SQL.
- Handled datasets from 10K to 500K+ rows, supporting aggregation, filtering, and data-exploration workflows over uploaded CSVs.

Quizzora — Multimodal Quiz & Summary Generator

[GitHub](#)

- Built a platform that turns PDFs, audio, and video into summaries and quizzes using GPT-4, Whisper transcription, and a ChromaDB-backed RAG pipeline.
- Designed the retrieval flow for education and corporate-training use cases, with chunked embedding storage for fast semantic search.

LEADERSHIP & EXPERIENCE

Google Cloud Arcade — Co-Facilitator (Program Manager, GCAF25)

Mar 2025 – Dec 2025

- Led cloud-enablement programs for 2000+ learners globally, running hands-on workshops on real-world Google Cloud use cases.
- Built onboarding systems and SOPs standardizing the experience across 2000+ learners.
- Drove partnerships with international developer communities across Germany, Tunisia, and India.

ArcadeOps Community — Co-Founder

Jan 2024 – Present

- Founded and grew a 400+ member community for structured knowledge-sharing on AI, cloud, and emerging tech.
- Own curriculum planning and engagement; increased participation ~35% through joint events with global Google Developer Groups.

CERTIFICATIONS

- Google Cloud Skill Badges — Vertex AI, Cloud Run, BigQuery (Credly-verified)
- Google Cloud Arcade Facilitator — First Milestone (Jun 2025)
- The Complete Web Development Bootcamp — Udemy
